

# KEY THINGS TO KNOW ABOUT EVENTS.

Engineering New Zealand is committed to following the government's public health advice. The summary below is current as at the 3 December 2021 and is subject to change.

## Public Health Measures are applied across all settings

### Vaccination

Getting vaccinated is a key step to gain more protection against the virus.

### If you are sick - stay home and get tested

If you have cold, flu or COVID-19 symptoms, stay home. Call your doctor or Healthline on **0800 358 5453** for advice about getting tested.

### Basic hygiene

Basic hygiene measures include good hand hygiene, cough and sneeze etiquette, avoid touching your face, and regular cleaning of high touch surfaces.

### Contract tracing

All venues are required to display QR Code Posters for the NZ COVID Tracer App. They must also have other contact tracing systems in place, including an attendance register and visitor register.

### Physical distancing

Physical distancing of 1 metre is recommended.

### Face coverings

Face coverings are encouraged.

### Ventilation

Indoor spaces should be well ventilated for example by opening windows, doors, and any vents.

## Case management

Cases of COVID-19 will continue to be managed across the framework. Engineering New Zealand will work with the Ministry of Health, following public health guidance, to identify who else may need to self-isolate and get tested. Contact tracing systems will support this process.

We will also alert all event attendees when we are informed of an attendee receiving a positive test following an event.

## Additional mitigations at each setting

### GREEN

Activities can go ahead for all at GREEN level. Venues that do not require Vaccine Passes will have 1m social distancing and 100-person attendance limits.

Guests are encouraged to wear face coverings.

Guests are encouraged to maintain 1m distancing. The Committee Members should keep a register of guests for contact tracing purposes.

### ORANGE

Activities can only go ahead in venues that are set up to operate at the ORANGE level. Venues permitted to open in ORANGE level that require Vaccine Passes will have no limits.

Guest are encouraged to wear face coverings except when seated at events.

Guests are encouraged to maintain 1m distancing.

Any site visits will need to meet wider public health measures as agreed with the Host.

Consider limiting events to prevent further transmission.

Checking Vaccine Passes will be the responsibility of the venue or committee members (at a non-commercial venue)

Committee Members must mark attendance on the registration list and confirm that the Vaccine Passes were sighted/scanned for each attendee. For contact tracing purposes.

### RED

Activities can only go ahead in venues that are set up to operate at the RED Level. Venues are only permitted to open in RED when they require Vaccine Passes, 1m social distancing, and 100-person attendance limits.

Limit events to prevent further transmission.

Guests are required to wear face coverings when at events except when seated.

Guest are required to maintain 1m distancing.

Any site visit will need to meet wider public health measures as agreed with the Host or be postponed.

Checking Vaccine Passes will be the responsibility of the venue.

Committee Members must mark attendance on the registration list and confirm that the Vaccine Passes were sighted/scanned by the venue.

**Event invitations must clearly state the public health requirements of the event and any changes that may occur if the level changes ahead of the event.**
