

POSITION DESCRIPTION

STUDENT AMBASSADOR

PURPOSE

The Student Ambassador role is an integral part of our organisational structure, providing a connection between Engineering New Zealand and students on their journey to becoming a professional engineer.

You'll have regular communication with the Branch and Young Engineer committees in your region as well as the Engagement Advisor, Students and Young Engineers based in the national office in Wellington. You'll be responsible for representing the voice of students at your tertiary institution and encouraging them to engage with our community of engineers.

ABOUT US

Engineering New Zealand Te Ao Rangahau is the professional home for all engineers in Aotearoa. We are a not-for-profit organisation that provides advice, information, education, and member services to over 22,000 members across 17 regions. We engage and support engineers at all levels, from students to retirees.

We work with a large network of volunteers within the industry who generously give their time for the betterment of the profession. You will work primarily with volunteers on our Young Engineer and Branch committees.

KEY ACCOUNTABILITIES

- Promote Engineering New Zealand events, activities, and resources to students in various ways like social media, in person, and online discussion forums.
- Organise 2–3 events over the course of the academic year, with support from Engineering New Zealand.
- Connect with engineering students to understand the issues facing them.
- Encourage students to join as Student Members at orientation events.
- Attend monthly catch ups for the regional committees and Student Ambassadors.
- Provide feedback on student engagement and events.

BENEFITS FOR YOU

- Build extensive connections with engineers already in the industry.
- Gain experience and insight as a volunteer in the engineering world.
- Add your Student Ambassador position to your CV and LinkedIn profile to stand out from the crowd.
- We'll bring you to Wellington to connect with Student Ambassadors and Engineering New Zealand staff on a one-day training session.
- Become the face of engineering within your tertiary institution.
- Support and influence the engineering industry – be a voice for change.
